To the Trade.

It affords us great pleasure to present to you our new Illustrated Catalogue for 1876.

It contains a full description of our complete stock of Stoves, Ranges, Furnaces, etc., a large proportion of which are entirely new productions, making a variety, from which can be selected goods suitable for all parts of the world.

We earnestly invite you to give each page a careful and critical examination. The cuts, or illustrations, we have spared no pains or expense to make truthful representations. We have done our utmost to avoid falling into the error of exaggeration in this respect, which has been so long noticeable in Stove Catalogues.

In conclusion we beg leave to say, that we believe a thorough examination will convince our patrons as to the merits of our manufactures, and this fact will secure to us a continuance of their past liberal patronage, and induce those of the trade who have not heretofore purchased of us to feel the desirability of doing so.

And now, if you will have the kindness to follow our solicitations regarding the inspection of this Catalogue, we will feel amply repaid for our efforts.

With these few remarks we rest our case.

We are, yours very respectfully

U. HILL, JR., PRESIDENT. } Peekskill, N. Y.
R. R. FINCH, VICE-PREST. }
P. B. ACKER, TREASR AND SEC'Y, New York City.

A NEW FIRST-CLASS WOOD COOK STOVE.

SEE CUT ON OPPOSITE PAGE.

FIVE SIZES.

	Nos. 7,	80,	8,	90,	9.
Size of Oven,	18x18	18x18	20x20	20x20	22x22
Height of Oven,	12	12	13	13	14
Length of Fire Box,	22	22	24	24	26

This Stove is strictly first-class in all its appointments. Nickel Plated Knobs, Polished Edges and Tin Lined Oven Doors.

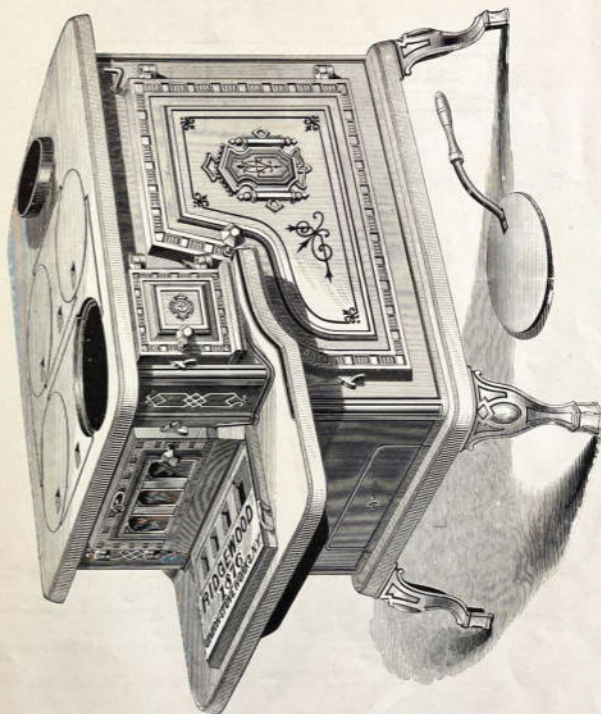

One of its principal features is the New Style Hearth Plate, which is not only extremely neat in appearance, but has the advantage of cleanliness, and gives an ample Fire Chamber.

The Hearth Plate and Front Doors swing towards the left, and the door is provided with a Patent Slide, to protect the Mica, when fire is being kindled.

Discriminating dealers will at once notice its many advantages, and secure the sale for their respective localities.

THREE SIZES.

	7 Inch.	8 Inch.	9 Inch
Size of Oven,	18x18	20x20	22x22
Height of Oven,	13	14	15

A new first-class Cook Stove, with Polished Edges, Nickel Knobs, and Tin-Lined Oven Doors.

This is a Large, Heavy Stove, with Illuminated Front, Shaking, Dumping and Slicing Grate, a very convenient Front Feed, and Flues especially adapted for the use of Bituminous Coal. It is, in fact, a combination of all the modern improvements, and altogether very desirable. We think the "Western Union" is destined to achieve a great popularity in the Soft Coal sections. Dealers will best enhance their interests by ordering samples at once, and securing the sale for their respective localities.

*A careful examination of this Catalogue
is respectfully urged,
and Liberal Orders solicited*

THE UNION STOVE WORKS,

XX PARAGON.

WITH LOW WARMING CLOSET.

FOR HARD OR SOFT COAL OR WOOD.

SEE CUT ON OPPOSITE PAGE.

FIVE SIZES.

	7 Inch.	80	8 Inch.	90	9 Inch.
Size of Oven, Square,	18x18	18x18	20x20	20x20	22x22

The well deserved popularity and great success of the PARAGON has induced us to make such further improvements as careful attention to the wants and requirements of the trade have suggested. Whatever, in our judgment, would tend to make this Range more popular, and deserving of increased support, has been carefully considered and adopted, and we take great pleasure in bringing to the attention of our many friends and the trade generally, a summary of results, which are comprised in the new XX PARAGON RANGE, and which will, when seen and understood, command the marked attention and admiration of every practical person.

The varied wants of buyers and families, in different and diverse sections of the country, have made it necessary for us to adapt this Range to their particular and peculiar demands; and, in this connection, we state that we have been careful to look into all those details—so essential to a large and strictly first-class Range like our PARAGON,—so shall make it complete in utility, handsome in design, reasonable in its cost, and economical in the expense of the household. In its adaptation to sectional requirements we will say that it burns, with equal facility and freedom, Soft Coal, Hard Coal or Wood.

Styles and Sizes as follows:

- 7 inch, 80, 8 inch, 90, and 9 inch plain.
- 80 and 90 with Reservoir.
- 80 and 90 with Elevated Closet.
- 80 and 90 with Elevated Closet and Reservoir.
- 7 inch, 80, 8 inch, 90, 9 inch, with Low Warming Closet. (See cut on opposite page.)
- 80 and 90, with Low Warming Closet and Reservoir.
- 80 and 90 with Low and Elevated Closet and Reservoir.

See Supplemental Sheet.

No. 1 (6 Inch). No. 2 (7 Inch). No. 3 (8 Inch). No. 4 (9 Inch).

Size of Oven, Square,	14x14	16x16	18x18	20x20

The merits of this Range have attained for it so great a popularity, that any extended remarks regarding it are unnecessary. It is sufficient to say that the demand for the Paragon has been so widespread, and it has met with such universal approval, that we now take great pleasure in introducing it to you, not only with additional improvements, but in a large variety of styles, complete in every particular, and adapted for use in all parts of the world.

In enumerating the different styles we give the following:

6, 7, 8 and 9 inch plain.

8 and 9 inch with Reservoir.

8 and 9 inch with Elevated Closet.

8 and 9 inch with Elevated Closet and Reservoir.

THE UNION STOVE WORKS,

CITY.

TWO SIZES.

	7 Inch. (2 feet 6 inches long)	8 Inch. (2 feet 9 inches long)
Size of Oven,	16x15	19x17
Height of Oven,	10½	11

This new and beautiful Stationary or Portable Range we introduce to the attention of the trade generally, with the belief that it is the most complete cooking apparatus ever made, and especially adapted for first-class tenements, French flats or laundry purposes.

The design is new and decidedly handsome, every plate is accurately fitted, smooth and heavy castings, capacious oven, and *has no equal* in baking.

The doors are tin-lined and mounted with nickel plated knobs.

NEW YORK AND CHICAGO.

THE UNION STOVE WORKS,

A NEW AND ELEGANT RANGE, HAVING OUR DUST-FLUE AND DAMPER ATTACHED.

SEE CUT 'ON OPPOSITE PAGE.

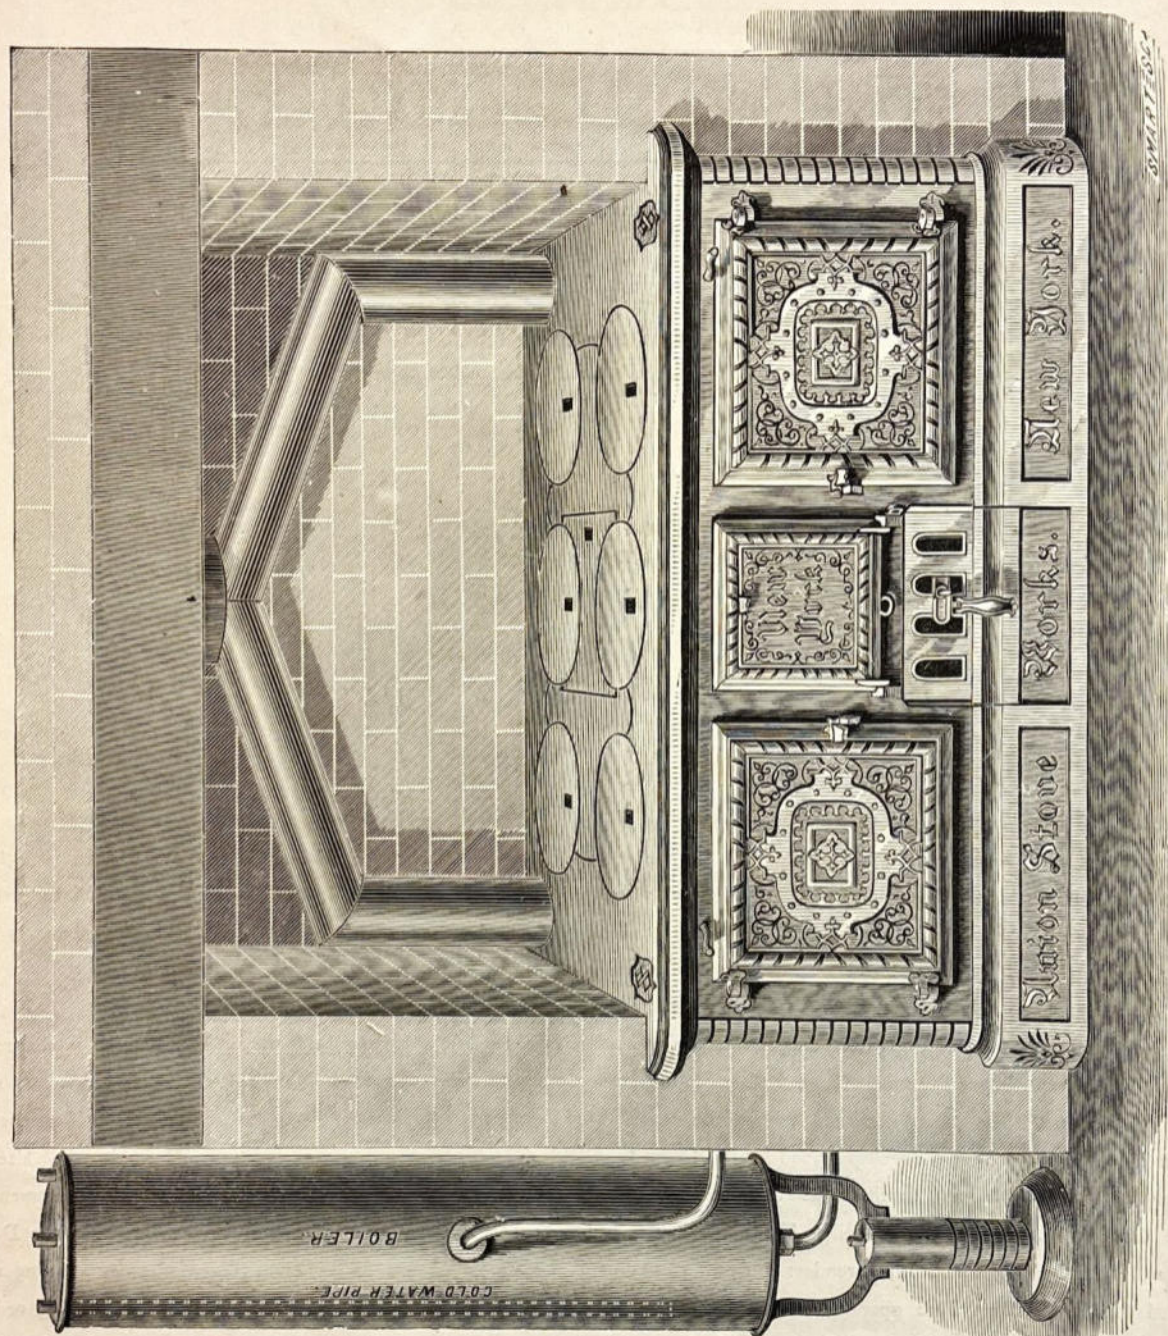

THREE SIZES.

	7 Inch.	8 Inch.	9 Inch.
	(3 feet long.)	(3 feet 6 inches long.)	(4 feet long.)
Size of Oven,	11½x10½	12x13	12x15
Height of Oven,	17½	19½	21½

This is a splendid Baking Range, elegantly mounted. The oven doors are tin-lined, and it is complete in all its appointments. It is easily operated, and not likely to get out of order. It is different from other Ranges, in that it is completely enclosed with casings, so that where the fire-place is of sufficient size to admit it, mason work is unnecessary. We guarantee satisfaction to every purchaser.

NEW BEAUTY.

SEE CUT ON OPPOSITE PAGE.

TWO SIZES.

	8 Inch.	9 Inch.
Size of Oven,	14x18	16x18

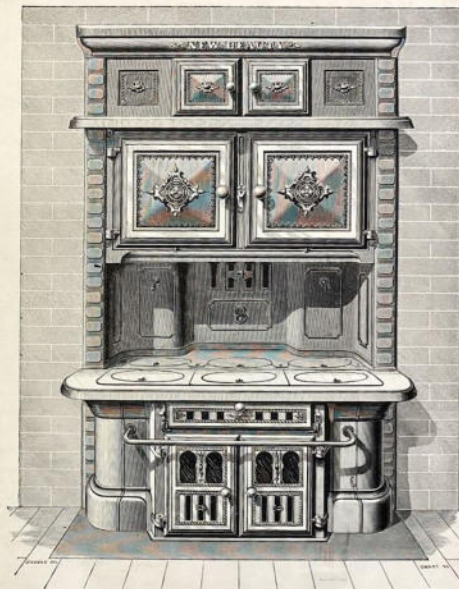

We request your attention to the accompanying engraving of our New Beauty Elevated Double Oven Range, and feel confident that we now offer to the trade and public generally the most complete, elegant and successful article in this line, ever put forth on the market. Having carefully avoided copying from others, it places us in a position to present at once something fresh and entirely new, in an artistic sense of the word; and we claim that it stands alone as the most highly finished and best possible operating Range made.

Among the many new features and improvements combined in the New Beauty are the following:

It is complete in all parts, and made entirely of Cast Iron, so that one-half the usual masonry is dispensed with; has a very large Warming Closet, with Sliding Doors, mounted with the finest Nickel-plated Knobs; has unusually large Ovens, with iron front frame to relieve the trouble and labor in removing the Oven to clean; has self-supporting Oven Slides; is the only Range provided with Dampers below the ovens, thereby ensuring LESS HEAT in the kitchen during *summer months*, and at the same time is thoroughly capable of baking in one or both ovens; has an immensely large Cooking Surface, with Six Boiler Holes, all of which are thoroughly available; is provided with large Broiler Door, and with the high space in front renders it well adapted for the successful use of a Dutch Oven, thereby securing well cooked food; the Dust Flue operates on the right hand side, and from its location can never get out of working order; is provided with the Nickel Bar in front and Knobs on all doors, and the moldings nicely ground and polished.

NEW YORK AND CHICAGO.

DAISY,

FOR WOOD.

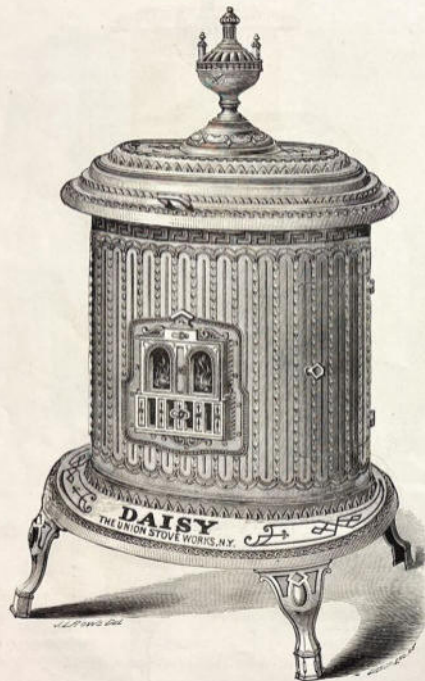

We can safely say the Daisy is the most desirable Top and Base in the market. In design and finish it is very tasty and elegant. The top is made in Two Swapping Sections, giving two boiler holes, or a large opening, to admit blocks of wood.

WITH BROAD, FINELY POLISHED EDGES, AND NICKEL PLATED KNOBS.
FOUR SIZES, No. 18. No. 21. No. 24. No. 27.

A very excellent feature of this stove is the Patent Register, which gives a Hot East Down, and prevents the escape of sparks into the room. It also has two large Minn Windows, which can be protected with a slide when the fire is being started. We offer the Daisy at prices that defy competition, and think dealers will find it to their interest to secure the sale of the stove at once. We can furnish Cuts from Lithograph when ordered.

DAISY.

FOR WOOD.

CAST IRON PARLOR.

THREE SIZES, No. 18. No. 21. No. 24. (See description on page 55)

BON-TON.

NEW SURFACE BURNER, FOR ANY KIND OF COAL.

With Illuminating Base, Sliding, Shaking and Dumping Grate, Deep Ash-Pit, and Cast Iron Ash-Pan.

FIVE SIZES, 9 Inch. 10 Inch. 11 Inch. 12 Inch. 14 Inch.

Altogether the most desirable Stove of its class in the market.

CIRCULAR.

A very desirable Stove, with Shaking and Dumping Grate, Double Bottom, forming a large Ash-pit. Polished Edges, Nickel Plated Knobs, and a very handsome and convenient Foot Rail.

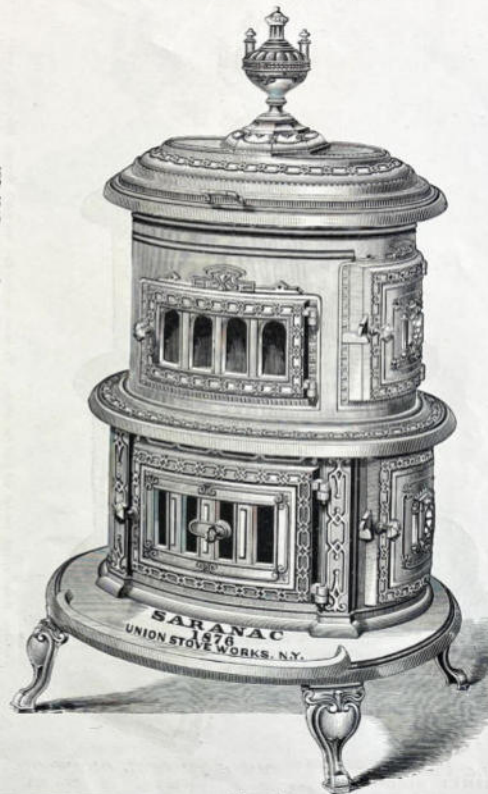

FOR WOOD, AND ALL KINDS OF COAL.
THREE SIZES. No. 17. No. 20. No. 24.

The Door Frame extends the full width of the cylinder. To insure its durability very heavy Wrought Iron, only, is used in mounting. For extending the height of stove, Extra Rangs can be furnished.

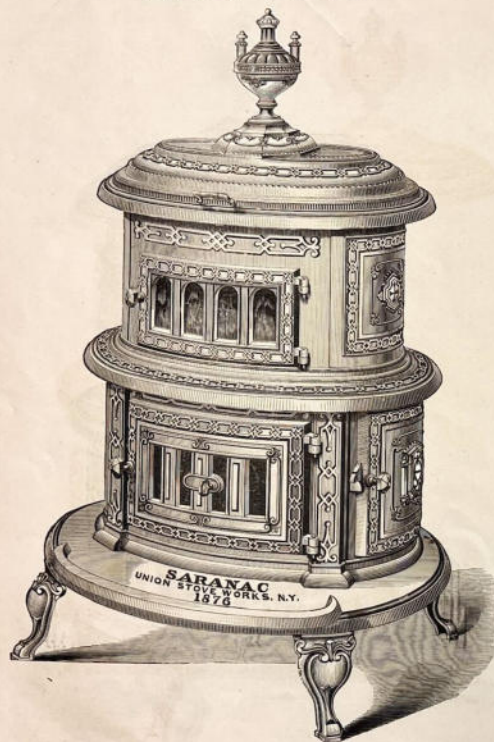

SARANAC.

SHEET IRON TOP.
FOR WOOD OR SOFT COAL.
THREE SIZES. No. 21. No. 23. No. 25.

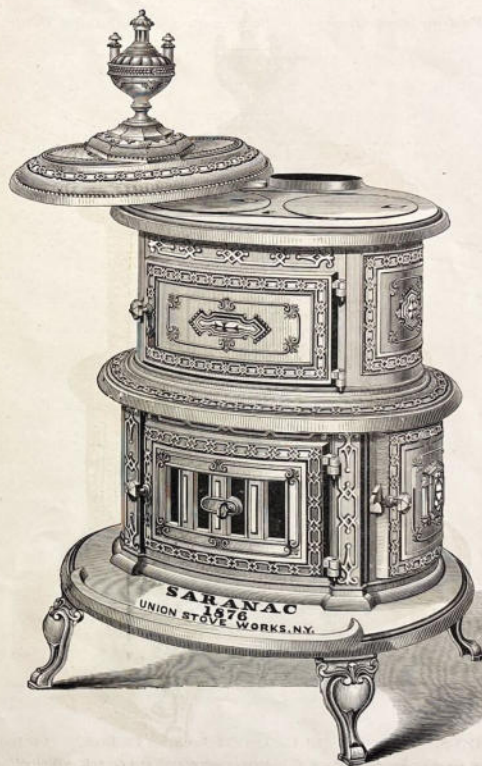

This is a New First-Class Cottage Parlor Stove, with Movable Foot Rail, Polished Edges and Nickel Plated Knobs. It is completely Air-Tight (having an Immoveable Hearth Flue), and is provided with a Patent Hot Blast Damper. The Top is composed of Two Swinging Sections, in one of which there are two Boiler Holes. Both tops can be so swung off as to admit large blocks of wood.

SARANAC.

ALL CAST IRON. FOR SOFT COAL OR WOOD.
(See Sizes and Description on page 59.)

SARANAC.

FLIRT.

FOR COAL.

Self-Feeding Base Burner, with Dumping and Shaking Grate.

FIVE SIZES. 9 Inch. 10 Inch. 11 Inch. 12 Inch. 14 Inch.

A first class, low price Base Burner Stove, of handsome appearance, well made, smooth castings, and has a most effective check-draft under smoke collar.

FASHION—1876 PATTERN.

FOR COAL.

BASE BURNER.

FIVE SIZES.

9 Inch. 10 Inch. 11 Inch. 12 Inch. 14 Inch.

Has Shaking Grate, Deep Ash Pit, and Cast Iron Ash Pan.

The above has all the modern improvements, and will compare favorably with any first class stove in the market. It is neat and handsome, well made, and operates nicely.

THE UNION STOVE WORKS,

OCTAGON.

FOR HARD OR SOFT COAL.

With Large, Deep Ash Pit, Cast Iron Drawer, Shaking, Damping and Slicing Grate, and a very neat and convenient Foot Rail.

SEE CUT ON OPPOSITE PAGE.

THREE SIZES.

	No. 15.	No. 18.	No. 21.
Inside Diameter of Grate,	10 inches,	12 inches,	14 inches.
Diameter of Fire Pot,	15 "	18 "	21 "
Depth of Ash Chamber,	10 "	10½ "	11 "

The western trade has long demanded a stove of this description, something of better design and finish than the common cannon stoves that have been sold so largely.

In this stove the Mica Windows are protected from the smoke, and the Pipe Collar is arranged with a Check Damper, thus bringing the fire under perfect control.

Has nicely Polished Broad Mouldings, and Nickel Plated Knobs.

The Sheet Iron Top adds greatly to the appearance and capacity of the stove, and can be put on without extra castings.

NEW YORK AND CHICAGO.

MAGNOLIA.

FOR HARD COAL.

THREE SIZES. No. 10. No. 12. No. 14.

A new Diving Flue Base Burner, of very neat design and extra finish, with Polished Edges, Nickel Plated Turn-
keys and elegant Foot Rail.
We can furnish this stove at popular prices, and we trust dealers will examine the merits of the Magnolia before
making their purchases elsewhere.

HILLSIDE.

FOR HARD OR SOFT COAL OR WOOD.

WITH LOW DOWN DUMPING GRATE. WITH OR WITHOUT NICKEL PLATED
TRIMMINGS.

TWO SIZES.

No. 1. No. 2.

This "Franklin" is very neat in design and finish, has a large pipe collar, and the front projects so as to prevent
the escape of smoke into the room.

We can furnish the Hillside at extremely low prices.

The accompanying cut is a representation of our Stove-Pipe Damper, improved for 1878.

The japanned handle, the wooden finger piece, the pointed spindle, and the simple method of connecting it with the plate, thereby securing its adjustment at any point desired, are advantages which commend the goods to all the trade.

A slight pressure forward on the spindle and then upon the finger piece of the spring, will separate the two pieces. Relieve the spring on the plate in the manner indicated, and tap or force forward the spindle, and the two will be again united.

PARAGON.

1877 PATTERN.

FOR HARD OR SOFT COAL, OR WOOD.

	(6 Inch)	(7 Inch)	(8 Inch)	(9 Inch)
Size of Oven, Square,	14 x 14	16 x 16	18 x 18	20 x 20

The merits of this Range have obtained for it so great a popularity that any extended remarks regarding it are unnecessary. It is sufficient to say that the demand for the PARAGON has been so widespread, and it has met with such *universal* approval, that we now take great pleasure in presenting it to the trade, **with additional improvements.** In its adaptation to sectional requirements, we will say that it can be arranged to burn with equal facility and freedom, *Soft Coal, Hard Coal, or Wood.*

Styles and Sizes as follows:

6, 7, 8, and 9 inch plain.

8 and 9 inch with Reservoir.

8 and 9 inch with Elevated Closet.

The most perfect operating Reservoir Range made.

(See description on Page 8.)

ROYAL.

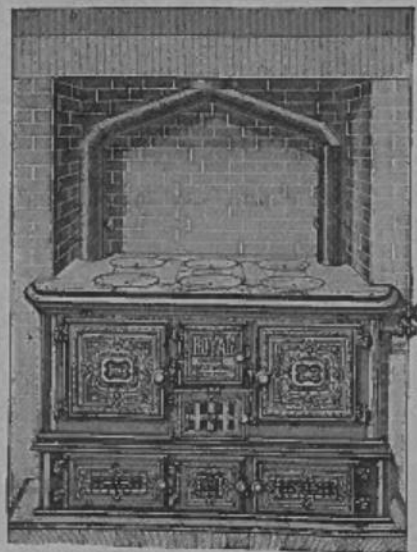

For Coal.

Plain Base.

Flat-Top Ranges heretofore have been set with the water pipes coming out through the brick work at the back, causing much annoyance in setting and great difficulty in repairing water back or pipes. This Range has **WATER FRONT** with pipes connecting **OUTSIDE THE BRICK WORK**. Hence it is easily set and easy to repair. It also requires 8 inches less depth of jambs than other ranges. Nickel door panels, nickel knobs, ash pan, dust flue, large cooking surface, and has been fully tested in every particular. Warranted perfect in operation, first class in every respect. **MADE FOR RIGHT OR LEFT HAND WATER FRONT.**

For openings required for setting, and prices, see opposite page.

ROYAL.

For Coal.

With Large Warming Closet.

Opening for Setting, 8 in.	3 ft. 6 in. wide.

With Plain Base. (See p. 12.)

List Price, 8 inch,	\$30.00
" " 9 "	37.00

Also furnished with square top for setting in portable form if desired.

NEW BEAUTY.

No. 80.
For Coal. 5 Holes.

Width 2 ft. 8 in. Openings required,
Height 4 ft. 9 in. Depth 1 ft. 4 in.,
One Large Oven,
Width 14 in. Height 10 in. Depth 17 in.,
One Smaller Oven,
Width 11 in. Height 10 in. Depth 17 in.

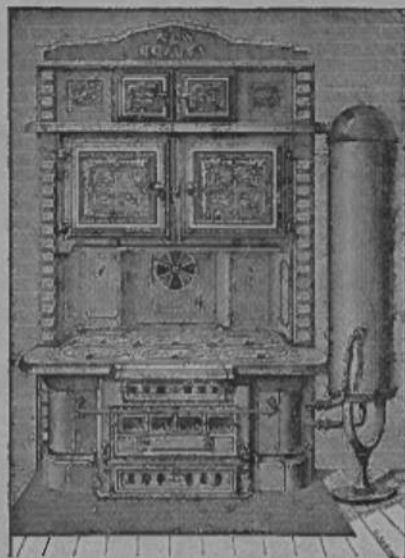

It is complete in all its parts, and made entirely of CAST IRON, so that one half the usual masonry is dispensed with; has a very large Hot Closet, with sliding doors, has ample Ovens, with automatic oven shelves and with iron front frame to relieve the trouble and labor in removing the Ovens to clean; has self-supporting Oven Slides; has a large cooking Surface, with Five Boiler Holes, all of which are available for boiling. THE FRONT GRATE IS LINED WITH BRICK and the range is mounted with Nickel Bar, Nickel Oven Panels and Nickel Knobs.

Made to meet the requirements of small families, and especially adapted for apartment houses.

List Price, \$39.00

NEW BEAUTY.

For Coal. 6 Holes.

We claim that the NEW BEAUTY DOUBLE OVEN COOKING AND HEATING RANGE stands alone as the most highly finished and BEST POSSIBLE OPERATING RANGE MADE.

It is complete in all its parts, and made entirely of CAST IRON, so that one-half the usual masonry is dispensed with; has a very large Hot Closet, with sliding doors, has unusually large Ovens, with automatic oven shelves and with iron front frame to relieve the trouble and labor in removing the Ovens to clean; has self-supporting Oven Slides; has a large Cooking Surface, with Six Boiler Holes, all of which are available for boiling. THE FRONT GRATE IS LINED WITH BRICK and the range is mounted with Nickel Bar, Nickel Oven Panels and Nickel Knobs.

These Furnaces may be lowered four inches by removing the legs.

A SELF-CLEANING SURFACE-BURNING GAS-TIGHT FURNACE WITH DUST-FLUE ATTACHMENT. This Furnace is designed to meet the wants of a large class who demand a thoroughly reliable heater, economical in fuel, easily managed, and at moderate cost. We aim particularly at simplicity, and have been careful to avoid all intricacies not necessary to a perfect article, and which involve study. The improvements we introduce with the COMMANDER will be found equal to the necessities of the times. They are the result of long experience and practical knowledge in their construction.

The Commander Wrought Iron Furnaces.

See Pages 22 & 23.

FOR ANY KIND OF COAL.

WITH SLICING, SHAKING & DUMPING GRATE.

FOR PRIVATE AND PUBLIC BUILDINGS.

These furnaces contain a STEEL DRAFT FLUE (patented) running horizontally through the radiator and projecting through the casing or brick work at both ends, with an opening at each end for connecting smoke pipe at *either right or left hand side*.

The manner in which this Steel Flue is constructed causes an equal radiation of heat from all parts of the shell and dome of furnace, making it a very *powerful and equable heater*.

It is absolutely gas tight, *and its power of radiation, unlike most other furnaces, will never become lessened by use.*

Has dust flue attachment, perforated lined feed doors, brass hinge pins and other features possessed by our Commander Cast Iron Furnaces.

We recommend this Furnace to the trade, fully confident that its merits will be promptly appreciated.

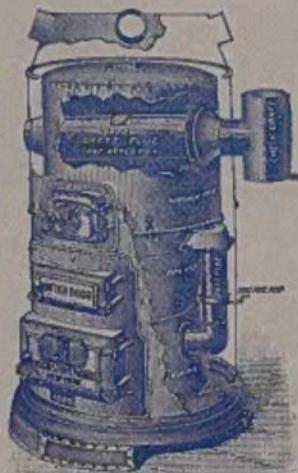

THE COMMANDER,
